CONNECTING-THE-STEEL-WORLD-

2nd Cold Rolling & Processing Technology Day

Tuesday 22nd Nov 2016 - Radisson Blu Chittagong Bay View, Bangladesh

A mega conference cum exhibition in Chittagong Bangladesh

Not much justification is needed to prove that Bangladesh is now one of the most promising place as far as steel investments are concerned. Everyone knows it. From Cricket to steel Bangladesh has surprised the world with the growth potential and commitment to perform better.

Against this backdrop, SteelGroup has decided to organize mega gathering of Cold Rolled and Galvanized Steel Users, Producers equipment & technology suppliers and key people from the industry in Chittagong Bangladesh.

Bangladesh also has locational advantage of being closer to Indian sister states and upcoming economy Myanmar. Globally steel processing is becoming more competitive day by day which is bringing in the need of using new and improved technology. The conference will focus on this key issue of new and innovative technology to produce steel at a competitive price.

Conference Focus

- New and effective technology for downstream processing of steel
- Energy efficiency
- Surface inspection system and lab equipments
- Measurement and automation system
- Auxillaries, Utilities & Consumables required

Who Should Attend

- Steel Producers
- Equipment and technology suppliers
- EPC Contactors and Consultants
- Automation and instrument suppliers
- Utility and auxillary equipment
- Project consultants
- Investors and Analysts
- Importers and Exporters
- Analysts and Consultants

Structure of the Conference

Steel rolling, coating and profiling conference is the first ever gathering of cold rolled and coated steel users, producers and also equipment and technology suppliers. All aspects related with the downstream production of steel coils and sheets is covered in the conference. Conference will have sessions in various areas covering market scenario, branding, technology and equipment related with steel cooled rolling and processing industry.

Topics and Sessions

- Panel discussion on present scenario of technology
- Innovation in Cold rolling and Processing, Clean Technology
- Pickling, Cold Rolling, Galvanizing and Galvalume, Colour Coating, Tin Plating
- Cutting, Slitting and Profiling, Corrugation Lubrication , Coolant and other Consumables
- Auxillaries pumps compressors etc
- Packaging and Logistics
- Automation and measurement systems
- Equipments and technology in downstream steel production
- Quality and inspection systems

Benefits to the Speakers/Presenting Companies

- 2 Complimentary delegates for the conference
- Opportunity to distribute company literature/flyers during the session
- Company's logo on the session backdrop during the sessions
- 15 minutes to present the technology through PPT/AV
- Company's names listing in the conference directory
- Opportunity to distribute giveaways during the sessions
- Sharing the database of conference participants
- Logo visibility at the venue on multiple signage

Cost for each speaking slot and presentation is \$2000 (INR 1 Lacs + Applicable taxes)

Select the topic from the list above and send us your abstract with names and profile of speaker before Nov 2016.
